

Admission Process

The admission and enrollment process at GSD **remains open throughout the year**, making possible the incorporation of new students as long as there are places available in the grade requested.

In order to facilitate the enrollment process for all families interested in becoming part of the GSD International School Costa Rica community, the admissions department has incorporated technological tools to carry out the entire process virtually.

Admission Process

We do not want distance to be an impediment for you to be part of our family, because at GSD International School Costa Rica we continue working with the commitment to develop integral citizens with open minds to face the global reality.
